srinjita.bhaduri@colorado.edu

EDUCATION

- | | |
|------|--|
| 2021 | PhD Computer Science and Cognitive Science
University of Colorado Boulder
THESIS TOPIC: Teach3D: A Toolkit for Effective Teaching of 3D Modeling and Spatial Thinking Skills in Middle School
COMMITTEE: Tamara Sumner (chair), Shaun Kane, Ellen Do, Tom Yeh, William Penuel |
| 2016 | M.S., Computer Science
University of Colorado Boulder
ADVISOR: Tom Yeh |
| 2013 | Bachelor of Technology, Computer Science and Engineering
Techno India College of Technology, West Bengal, India |

RESEARCH INTERESTS

Human Computer Interaction (HCI), Learning Sciences, Educational Technology, 3D Printing, and Augmented Reality

RESEARCH EXPERIENCE

- | | |
|----------------------|---|
| Jan 2020
Present | Graduate Research Assistant supervised by Dr. Tamara Sumner
University of Colorado Boulder
Collaborative Research: STEM Career Connections: A Model for Preparing Economically-Disadvantaged Rural Youth for the Future Workforce
Researching ways to create rich learning experiences for middle school students in rural mountain school district in Colorado, i.e., Eagle County Schools (ECS) with 3D modeling and printing technologies to prepare economically-disadvantaged rural youth for the future workforce. Responsible for all aspects of developing tools, designing research instruments for data collection, and research data analysis. These activities also extend to recruiting participants, writing IRB documents, and collaborating with partners to provide formative feedback based on students, teachers, and other stakeholders. |
| Jan 2016
Aug 2019 | Graduate Research Assistant supervised by Dr. Tamara Sumner
University of Colorado Boulder
Engineering experiences: Research on student competency, motivation and persistence in STEM for underserved youth
Worked on creating out-of-school time learning experiences for youth in middle and high school using Unmanned Aerial Vehicles (UAVs) and 3D modeling and printing technologies to introduce and engage underserved youth in engineering during out-of-school time and foster long-term interest and pathways into the field. Responsible for all aspects of developing tools, designing research instruments for data collection, and research data analysis. These activities also extend to recruiting participants, writing IRB documents, and collaborating with partners to provide formative feedback based on participant behavior.
4 peer-reviewed first-author articles, 1 co-authored book chapter, 1 demo, 3 posters |

PROFESSIONAL EXPERIENCE

2017	Lab Manager, Sumner Lab
PRESENT	Responsible for organizing weekly lab meetings, getting members set up, organizing research retreats, and handling purchases for the Sumner Lab.
Dec 2013	Programmer Analyst Trainee
June 2014	Cognizant Technology Solutions, Levi's Strauss project Developed automation tool in VB script for day-to-day activities performed by Support team.

INVITED TALKS

2020	Supporting Spatial Thinking Skills in Youth through 3DARVisualizer thriveWISE, DevPulseCon 2020 Hosted virtually on October 6
2019	Supporting Spatial Thinking Skills in Novice 3D Modelers through 3D Modeling and Augmented Reality University of Colorado Boulder, ATLAS Institute March 12
2018	User Centered Design (CSCI 5839) Guest Speaker Discussed different approaches to Hardware and Rapid Prototyping University of Colorado Boulder October 2018
2014	Designing Tactile Pictures with Craft Materials for 3D Printing Co-presented talk at Teen's Science Cafe Denver, CO March 14

SERVICE

Board Member	EcosySTEM ARTS 2020 - Present Mentor engineering team creating designs for children in hospitals
Student Rep	Graduate Student Advisory Board 2017-2019 College of Engineering and Applied Science (CEAS) University of Colorado Boulder TA Recruitment 2019 Department of Computer Science University of Colorado Boulder
Core Member	CS Graduate Student Association (CSGSA) 2017-2019 University of Colorado Boulder
Participant	Selected for the CRA-W(omen) Grad Cohort 2019
Reviewer	CHI (2019-2020), ICRA (2020), SIGCSE (2020-2021), ASEE (2018-2021), Human Computer Interaction Journal (2018), IDC (2019-2020)
Volunteer	IDC 2020, CHI 2019, C&C 2017

TEACHING EXPERIENCE

DEPARTMENT OF COMPUTER SCIENCE, UNIVERSITY OF COLORADO BOULDER

Teaching Assistant	Software Methods and Tools Fall 2019, Summer 2016, Fall 2015, Summer 2015, Fall 2014 25-30 students, 1-2 sections Intro to Programming - Level II Spring 2015 30 students, 2 sections
Grader	Human Centered Computing and Development Summer 2017 Intro to Programming Fall 2014

CU SCIENCE DISCOVERY

Summer Camp Facilitator	3D Printing & Wearable Electronics Academy with high-school students 2018 3D Printing summer camp with elementary-school students 2015
-------------------------	---

MENTORING EXPERIENCE

Spring 2020	Ketan Kamat Undergraduate in Aerospace Engineering University of Colorado Boulder Modification of <i>3DARVisualizer</i> app for debugging 3D models
Fall 2019 Spring 2020	Ayush Shekhar, Julietta Rozin High-school students from Peak-to-Peak Charter School Supporting 3D modeling experiences with Augmented Reality (Secured first place in Science Research Symposium in Boulder district for the Computer Science and Math category)
Spring 2019	Kellen Kennedy Undergraduate in Biological and Chemical Engineering University of Colorado Boulder Approaches to design 3D modeling user studies
Fall 2017 Spring 2018	Peter Gyory PhD student in ATLAS Institute Designing Augmented Reality debugging app to support 3D modeling Hannie Ngo , Discovery Learning Apprentice Undergraduate in Computer Science University of Colorado Boulder Interaction Design & data mining in engineering education
Fall 2016 Spring 2017	Jesus Ortiz Tovar , Discovery Learning Apprentice Undergraduate in Computer Science, University of Colorado Boulder Using 3D Printers to Explore New Interactions for Tabletop Games
Summer 2015	Lindsey Welch, Chantelle Humphries 3D Printed braille Dinah Bowman, Nueka Lo , Post-processing Techniques to Enhance Tactile Textures Summer Research Mentor Program (REM) for high school students through CU Science Discovery. (Results were invited and presented at the White House)

OUTREACH ACTIVITIES

2018 | CU Science Ambassador, University of Colorado Boulder

AWARDS AND HONORS

2018 | **Outstanding Service Award**
Department of Computer Science, University of Colorado Boulder

2016 | **Early Career Professional Development Award**
Department of Computer Science, University of Colorado Boulder

2015 | **Outstanding Teaching Assistant Award**
Department of Computer Science, University of Colorado Boulder

Best User Interaction
HackCU organized by University of Colorado Boulder

GRANTS

UNIVERSITY OF COLORADO BOULDER

2020 | Beverly Sears Graduate Student Grant | \$1000
Department of Computer Science Travel Grant | \$400

2019 | Department of Computer Science Travel Grant | \$1000
Institute of Cognitive Science (ICS) Travel Grant | \$700

2018 | Institute of Cognitive Science (ICS) Travel Grant | \$500

SKILLS

Programming | Python, C/C++, Java, JavaScript, HTML5/CSS, C#, R, three.js, Node.js

Fabrication | 3D Modeling (TinkerCAD, SketchUp, Open(J)SCAD), 3D Printing, Sketching/Wireframing (Sketch), Laser Cutting, Unity game design

Research Techniques | User studies, Qualitative and Quantitative research, Survey design (Qualtrics)
